

CONNECTING RELATIONSHIPS

Couples Workshop Information Sheet

The Connecting Relationships Couples Workshop is an – informational, experiential and life-changing weekend. Using a combination of presentation, experiential experiences, couples connecting and individual reflection couples learn how their marriage can go from damaged to healed and connected, resulting in a trickle-down effect to their families and the church.

Connecting Relationships Couples Workshop is NOT a general information seminar with people coming and going as they please. We have found that this type of seminar produces no results and does not result in increased knowledge or improved marriages.

We ask churches for:

Committed Couples – (10 minimum–12 maximum) who are willing to:

- Complete and return application and personal commitment to participate to us
- Spend the entire weekend (14 hours) with us and participate completely beginning to end
- Complete homework exercises and follow-up that we will email to them

Captive Setting – private and quiet with no interruptions, ability to rearrange tables and chairs
Like a youth room, fellowship hall, conference room or multi-purpose room
With a sound system, projector and screen

Connecting Relationships Couples Workshop consists of:

- 40% Presentation of Biblical principles that have changed our lives
- 30% Experiential Learning and Couple Connecting Exercises
- 30% Individual Reflection, Exercises and Discussion that reinforce teachings

Schedule for the Weekend:

- Friday night – 7:00-9:30
- Saturday – 11:00-6:00 (with a working lunch break)
- (Optional – some churches have chosen to serve breakfast before the Sunday session.)
- Sunday – 9:00-1:30 – (all ending times are approximate)

Fee for the weekend is \$99 per couple, minimum of 10 couples. This includes two Connecting Relationships Workbooks. A \$50 deposit is requested when scheduling the weekend, when received we will send applications and instruction. The church is encouraged to provide scholarships to couples who may need assistance. Completed applications are requested 2 weeks before the workshop.
